- Represents zero or rounds to 0.0.

<sup>1</sup> 1990 census counts are as published in 1990 census reports and thus do not include any changes published subsequently due to boundary changes or to the Count Question Resolution program.

<sup>2</sup> In Puerto Rico, the primary divisions are municipios, which correspond to counties.

<sup>3</sup> Data are shown for census designated places (CDPs) which are statistical areas defined for concentrations of population outside of incorporated places. All places shown for Puerto Rico are CDPs identified as zonas urbanas (defined for the governmental centers of municipios) or comunidades (defined for other concentrations of population). Puerto Rico has no incorporated places.
